SUMMARY

I am a dedicated individual with a strong passion for leveraging my skills and knowledge to contribute to impactful projects. With experience in Python and web development frameworks, I am driven to create innovative solutions and deliver exceptional results. I am eager to continue applying my expertise in collaborative environments that challenge me professionally and allow me to make a positive contribution to both the team and the organization.

EXPERIENCE

Python Full Stack Development

CADL Chandigarh Academy of Digital Learning)

04/2024 04/2025

- Designed and implemented user authentication system with JWT tokens.
- Used Django's auth module to secure endpoints and manage user sessions.
- Built RESTful APIs for product catalog, shopping cart, and order processing.
- Secured APIs with CSRF protection, input validation, and permission classes.
- Created database models and optimized queries using Django ORM.
- Developed admin dashboards for monitoring sales, inventory, and analytics.
- Integrated Stripe payment gateway and configured webhook event handling.
- Improved API performance with caching and select_related/prefetch_related.
- Designed responsive UI components using React and Tailwind CSS.

EDUCATION

Master of Computer Applications(M.C.A) Pursuing Amity University

03/2025 Present

TRAINING / COURSES

Python Full Stack Developer

MERN Full Stack Developer

KEY ACHIEVEMENTS

Project Launches

Developed and deployed multiple full-stack applications using Python/Django and the MERN stack, including an e-commerce platform and a Chess game, resulting in improved user engagement and streamlined workflows.

PROJECTS

Ecommerce Website

02/2025 03/2025

Designed and implemented core functionalities including product catalogs, user authentication, and shopping cart systems for an e-commerce website.

- Built and optimized RESTful APIs for product catalog, shopping cart, and order management using Django REST Framework.
- Integrated Stripe payment gateway and implemented webhook handling for transactions.
- Designed responsive frontend components with React and Tailwind CSS for a seamless user experience.
- Live Project: <https://abhishek0203.pythonanywhere.com/>

SKILLS

Bootstrap CSS Django

ECommerce React HTML

JavaScript Python MongoDB

PostgreSQL Version Control(Git)

React Native Node.js REST

Tailwind FastAPI Websockets

Django Rest Framework Payment Gateway

PROJECTS

chatClassRoom - Virtual Learning Platform

06/2025 07/2025

- Designed and developed an interactive e-learning platform enabling students and teachers to collaborate seamlessly.
- Built RESTful APIs for user profiles, notes, questions, and topics using Django REST Framework.
- Integrated Google & GitHub OAuth for secure social authentication and implemented Cloudinary for media storage.
- Developed a Progressive Web App (PWA) with ReactJS and TailwindCSS for a mobile-first, offline-capable experience.
- Live Project: <https://chatclassroom.onrender.com/>

Tic Tac Toe Game

09/2024 10/2024

- A responsive and interactive Tic Tac Toe game built with React Native for mobile devices featuring dynamic gameplay managed by React hooks.
- Developed a responsive and interactive Tic Tac Toe game using React Native.
- Implemented turn-based gameplay with winning and draw conditions.
- Created a clean UI/UX design using Tailwind Css.
- Live: <https://abhishekbisht0203.github.io/Tic-Tac-Toe/>

Portfolio

06/2024 06/2024

Designed and developed a responsive portfolio website showcasing personal projects, skills, and professional achievements.

- Integrated Stripe payment gateway for "Buy me a Coffee" donations.
- Focused on creating a modern, professional UI/UX for strong presentation.
- Optimized website performance with lazy loading and minification techniques.
- Live Portfolio: <https://abhishekbisht0203.github.io/portfolio/>
