SUMMARY

I am a dedicated individual with a strong passion for leveraging my skills and knowledge to contribute to impactful projects. With experience in Python and web development frameworks, I am driven to create innovative solutions and deliver exceptional results. I am eager to continue applying my expertise in collaborative environments that challenge me professionally and allow me to make a positive contribution to both the team and the organization.

EXPERIENCE

Python Full Stack Developer | CADL (Chandigarh Academy of Digital Learning)

Apr 2024 – Apr 2025

- Engineered scalable web applications using Python, Django REST Framework, and PostgreSQL, improving backend performance by optimizing queries and API response times.
- Implemented secure authentication and authorization systems, enhancing application security and user data protection.
- Designed and deployed responsive frontends with React and Tailwind CSS, ensuring seamless usability across devices.
- Integrated payment gateways, WebSockets, and third-party APIs, expanding platform functionality and user engagement.

Full Stack Developer | Dexplovate

May 2025 – Present

- Spearheading development of full-stack applications using the MERN stack and FastAPI, delivering high-performance APIs and modular architectures.
- Architected and optimized PostgreSQL and MongoDB databases, enabling scalable workflows and efficient data management.
- Developed real-time features and RESTful APIs with FastAPI, seamlessly connecting them to React-based frontends.
- Driving agile development cycles by collaborating with cross-functional teams to deploy production-ready features and enhance UI/UX.

EDUCATION

Master of Computer Applications(M.C.A) Pursuing Amity University

📅 03/2025 Present

TRAINING / COURSES

Python Full Stack Developer MERN Full Stack Developer

KEY ACHIEVEMENTS

Project Launches

- Full Stack Developer with hands-on experience in MERN, FastAPI, and Django REST Framework. Skilled in building scalable APIs, secure authentication systems, and responsive UIs with React, Tailwind, and PostgreSQL. Proven track record of deploying production-ready web applications that improve user engagement and streamline workflows.
- Built and deployed a real-time multiplayer Chess game with WebSockets and React.
 - Implemented CI/CD pipelines with GitHub Actions for automated deployment.

SKILLS

Bootstrap	CSS	Django
ECommerce	React	HTML
JavaScript	Python	MongoDB
PostgreSQL	Version Control(Git)	
React Native	Node.js	REST
Tailwind	FastAPI	Websockets
Django Rest Framework		Payment Gateway

PROJECTS

chatClassRoom - Virtual Learning Platform

📅 06/2025 07/2025

- Designed and developed an interactive e-learning platform enabling students and teachers to collaborate seamlessly.
- Built RESTful APIs for user profiles, notes, questions, and topics using Django REST Framework.
 - Integrated Google & GitHub OAuth for secure social authentication and implemented Cloudinary for media storage.
 - Developed a Progressive Web App (PWA) with ReactJS and TailwindCSS for a mobile-first, offline-capable experience.
 - Live Project:<https://chatclassroom.onrender.com/>

Ecommerce Website

📅 02/2025 03/2025

- Designed and implemented core functionalities including product catalogs, user authentication, and shopping cart systems for an e-commerce website.
- Built and optimized RESTful APIs for product catalog, shopping cart, and order management using Django REST Framework.
 - Integrated Stripe payment gateway and implemented webhook handling for transactions.
 - Designed responsive frontend components with React and Tailwind CSS for a seamless user experience.
